

BY AUTHORITY. SALE OF THE HAWAIIAN HOTEL PREMISES, HONOLULU, H. I.

On Wednesday, July 28, 1897, at 12 o'clock noon, at the front entrance of the Executive Building, Honolulu, will be sold at Public Auction, the Hawaiian Hotel Premises at Honolulu.

These premises are centrally located in the city, in the centre of the block bounded by and with entrance drives from Hotel, Richards, Beretania and Alakea streets, and the grounds contain an area of 17-10 acres.

The Buildings consist of the Hotel proper of two stories and basement; built of brick and concrete with broad verandas at front and rear of each story.

The Main Building covers an area of 10,800 sq. feet with Lanai or wing addition on one side, 40x24 feet, and wooden addition on opposite wing for Kitchen, 60x18 feet.

There are also Four Cottages on the premises with ample provision for bath rooms and closets.

The Main Building contains a spacious Parlor, Public and Private Dining Rooms, Large Billiard Hall and Bar Room, and Forty Sleeping rooms. The Cottages contain about twenty additional sleeping rooms.

A water tank with capacity of 10,000 gallons is placed on a tower at an elevation sufficient to give a good water pressure in second story of the Main Building. This tank is supplied from an Artesian well on adjoining premises, owned by Dr. J. S. McGrew.

The buildings and grounds are thoroughly lighted with Electric Light.

Plans of the Buildings and grounds can be seen at the office of the Minister of the Interior.

Terms of Sale are Cash in United States Gold coin.

Upset price: \$500,000.00.

In case there is no bidder to purchase the property at the above upset price, a lease of the same will immediately be offered for sale at an upset price of \$4000 a year for a period of thirty years under the conditions set out in Act 7, Laws of 1896—and more particularly of Sections 2 and 4 of said Act which reads as follows:

"Section 2. Every such lease shall contain a covenant on the part of the lessee that he shall, during the first four years of the term of the lease, cause to be erected upon the leased premises a fire proof building of Brick, Stone or Metal, in a workmanlike manner, satisfactory to the Minister of the Interior at not less than a stated cost; and keep the same suitably insured at not less than two-thirds of its value for the benefit of the lessor; and shall keep the building in good repair during the remainder of the term of lease, reasonable use and wear thereof only excepted; and in case of damage or destruction of such building by fire, shall make good such loss or damage by the necessary repairs or reconstruction or else surrender the insurance to the lessor.

"Section 4. Every such lease shall also contain a covenant on the part of the lessor, that upon the request in writing by the lessee or his representatives, before the expiration thereof, the premises with the improvements, shall, if all of the conditions to be performed by the lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years; unless said premises shall be required for public uses, of which the lessee shall receive at least one year's notice. Such auction sale shall be held not more than six months nor less than one month before the expiration of said term."

The cost of building to be erected in accordance with Section 2 as above quoted, is placed at \$50,000.

J. A. KING,
Minister of the Interior.
Interior Office, March 27, 1897.

JAPAN'S CURRENCY.

Senator Wolcott has expressed the opinion that the recent currency legislation of Japan must not be construed as an attempt to establish and maintain a gold standard, but simply an attempt to preserve the economic advantages which she at present enjoys because of the gold premium which exists in Japan. He further says that, at the present price of silver measured by gold, the result of the action of Japan would be to drive all its silver out of that country. It is hard to see how Japan can retain the advantages of a gold premium by bringing its silver coinage up to the market parity with gold. This policy would seem to destroy the gold premium at a stroke. If Japan has blundered it is probably in putting her silver coinage too close to its metal value in an uncertain state of the market. In other words, making dear money of her subsidiary coinage, which, according to the accepted maxim, renders it liable to expulsion. Therefore Senator Wolcott is likely right when he says silver may be driven out of Japan. This result would not happen, however, if—as the BULLETIN has suggested previously—the very action of Japan should prevent any more depression of the silver market. The bimetalist Senator herein quoted is probably wrong in sizing up Japan's motive. That country has, it is more reasonable to suppose, an eye to the accumulation of gold stores through the medium of foreign trade. She anticipates a balance of trade in her favor, increasingly, from many quarters where she is sending her own people's steamers. It really seems to be a sensible policy, and better calculated to promote universal bimetalism, than the emergency expedients—putting the nation into debt—which the United States has had to employ for preserving her treasury balance of gold. Japan has taken the bull by the horns, it would appear, by adopting a currency scheme very like one advocated by some able professors in the United States. These argued on the principle of Grant's famous advice about specie payments—"The best way to resume specie payments is to resume." They recommended transforming the silver currency to a parity with gold, on the basis of relative values of the metals at the time present, and the nation's assuming of whatever loss accrued from the transformation.

Through the developments of the X ray, the modern Esculapius will be more a machinist than a chemist. One of his kind in Chicago has begun scouring people's stomachs, just as Billy Roe at the foundry would clean a piston box. One may almost imagine the time coming when a doctor will sit in a window with his kit like a watchmaker, and take a fellow all apart and put him together again after scrubbing his diaphragm or oiling his vertebrae.

LOTTERY MOVING.

It is reported at New Orleans that one of the effects of the prize fight in Nevada will be the removal of the Honduras lottery to Nevada. This is the old Louisiana lottery that, failing to get a renewal of its charter in 1892, had to go abroad. Hawaii by its Legislature, upon an overwhelming

popular demand, invited it to Honolulu, but the Provisional Government countermanded the invitation. So the outfit went to Honduras. There it appears its experience has not been altogether satisfactory to the management. "It has suffered from the revolutions there," "a New Orleans correspondent wires," and has been oppressed by the extraordinary taxes, and the Government of Honduras has insisted upon a change in the scheme of the lottery, and that a large percentage of the money received for the tickets shall be distributed in prizes. This has disgusted the incorporators, who are looking for a new field." Nevada's rowdy proclivities, as evidenced by its Legislature's proffer of hospitality to prize fighting, have induced the lottery gang to think that the Silver State is their natural haven of rest. They will offer inducements to Nevada, therefore, for a site for their demoralizing establishment, and, if a bargain be struck, will try to find some way of getting over the disability of being prohibited from using the United States mails for their transactions.

DOOM OF TRUSTS.

According to a New York dispatch, there is a general opinion that the Federal Supreme Court, in its decision adverse to the Transmissouri Freight Association, has struck a mortal blow at every form of trust and combination under the terms of the Sherman anti trust law. Several associations of manufacturing and transportation interests are mentioned as especially affected, and it is even said that the law may be made to apply to the labor organizations. If the law is inadequate for the purpose it is for the people to see that they get laws which will forbid all organized efforts to crush free competition or to suppress individual liberty of action. For the tyranny of these things in modern days is as baneful as that of absolute monarchs in times happily past forever for the leading nationalities of the world.

Through the developments of the X ray, the modern Esculapius will be more a machinist than a chemist. One of his kind in Chicago has begun scouring people's stomachs, just as Billy Roe at the foundry would clean a piston box. One may almost imagine the time coming when a doctor will sit in a window with his kit like a watchmaker, and take a fellow all apart and put him together again after scrubbing his diaphragm or oiling his vertebrae.

New .. Enterprise !

Our Retail Department having met with such success, and wishing to accommodate our patrons in furnishing their kitchen with a complete outfit, we concluded to add to our already large stock of House-furnishing Goods

Ranges AND Cook Stoves.

Looking carefully through the different works in the East, we find

The Michigan Stove Co.,
OF DETROIT, MICHIGAN,

are the largest manufacturers of this class of goods in the world. They make the largest and best line that are particularly adapted to this country. We secured the Agency for these Islands, and now have on the way a large shipment of these justly celebrated Ranges and Cook Stoves. They will be here on the arrival of the barkentine "Archer," which will probably be about the 20th of this month. Anyone contemplating buying a new range will do well to wait a few days and have the finest assortment to select from ever brought to this market, and at prices to suit the times.

Due notice will be given of their arrival.

Mechanics and Teamsters.

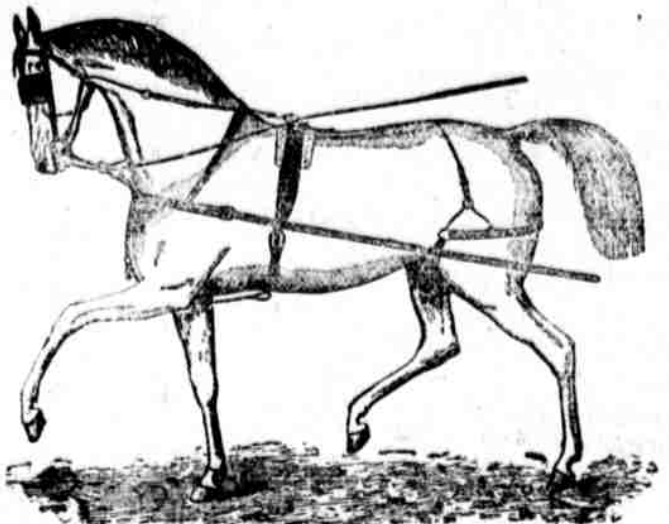

Anyone needing the services of First-class Mechanics, Teamsters, Lamas, etc., can be supplied by applying to J. Alfred Magoon, or to the Hawaiian Hovey L. Stitt, Telephone 706. F. WILBURTON, Manager.

THE NATIONAL FEED BOX is a perfect device for slow feeding in the stables or on the road and is a boon both to the horse and his owner. It is the best device yet invented for feeding all kinds of grain, chopped food, bran mash, water or medicine.

It is made of steel, practically indestructible. The follower slides on a malleable iron rod, riveted to the box, our latest invention. Finely galvanized. Easily Cleaned. Pure and Odorless. Light and Portable. The only box for campaigning. Used and approved by owners and drivers of the fastest horses in the world. Especially adapted to the use of fire and police departments, stock farms, and public and private stables.

Owners and drivers of horses entered for the 11th of June races should see that their animals are provided with these feed boxes. They will be sure winners if they do. Betting men should not invest a dollar on a horse that has not been fed from the NATIONAL FEED BOX. They will be sure losers if they do.

Horsemen generally and every man, woman or child who owns a horse is invited to call and see them at

No Cause for Alarm!!!

Now that we have found a preparation that is a powerful disinfectant, perfectly harmless, free from odor, convenient to use and at the remarkable low figure of—

5 Cents a Gallon.

No prudent housekeeper can afford to run the risk of contracting sickness, which is sure to occur, should you neglect to keep the sewers, cess-pools and outhouses in a perfectly deodorized condition.

Purifine 25c.

Any Physician will endorse what we claim when we tell you that nine tenths of all fevers and alike illness is the result of carelessness about the sanitary conditions of the premises.

Purifine 50c.

One great objection to most disinfectants is that they have such a disagreeable odor. Purifine is odorless.

Purifine \$1.00.

Don't delay in purifying the air you daily breathe and trust to kind providence that you may escape illness. Now is the time to commence the good work, don't wait until the dead heat of summer has arrived; it may be too late.

Take time by the forelock. To be forewarned is to be forearmed.

Purifine in quantities to suit. We are the Sole Agents.
